SCREEN CURTAIN DESIGN

Screen curtain design

Perfect in households with pets or small children. Available in the colours vanilla and anthracite and in the size 220 x 95 cm.

SLIDING SCREENDOOR

The **sliding screen door** is made to measure and ideal for sliding patio doors. It consists of a screen door guided by a top rail. This screen is made of heavy duty profiles and a strong kick plate. It runs smoothly on wheels with ball bearings. The use of top quality materials guarantees longevity, especially for external use. The screen is tailor made and ready for installation. Available in white and in approximately 180 RAL colours.

The **MAGNU B FLY SCREEN** is the latest innovation in this range of products. It has no hinges or clips and therefore no maintenance. The frame is pvc with a magnet attached to the total frame. The screening frame is also totally surrounded by a magnetic strip which means the window is totally sealed. To open window the bottom of the screen can be lifted and when released automatically comes back together to form a seal. The screen is secured to the top of the frame with screws at either corner.

Nearly all present day window handles have a built in lock. This causes the handle to protrude beyond the window frame resulting in the handle damaging the fiber screening. With Magnu B double extrusion this problem is resolved, by allowing sufficient space for the handle. Magnu B window screens can also be supplied with 10/1 steel wire screening as well as fibreglass coated.

BUG OFF WINDOW CAGE

Lightweight aluminium cage fitted externally. Screened with pet mesh for strength and durability. Can also be screened with 1mm aluminium plate with 5mm perforations backed with standard fiber screen.

SOLIDE INDUSTRIAL SCREEN DOOR.

Frame 60mm x 25mm reinforced aluminium. Uprights one length (no centre pvc joint). Bottom section Pet Screen for extra strength and durability much stronger than the standard fiber mesh. Fitted on a Sanderson Roller System. Guide frame and brush fitted to base where required. Available in Brown White Or Aluminium
